Hey Denzel,

Thanks for reaching back out to us. I can definitely provide you with the pictures our authenticators provided me (please see the images attached).

Based on their notes. The main reason for this failed authentication is because the label and box are off, the midsole is too hard and the build and material of the sneakers are off as well. Hope this information was helpful. Please don't hesitate to reach back out to us if you have any other questions or concerns. We're always glad to help. Thank you for being the best part of the StockX family!

Kind regards,
Starlyn

Ok if possible can your team educate us by sending a few pictures to point out what you see so I can educate my team on what to look for. We definitely only want authentic shoes so for educational purposes please and thanks.

Hello Denzel,

Thank you for reaching out to the StockX support team. Hope you and your loved ones are doing great. I appreciate you taking the time to follow up with us to gain clarity on your verification results for order #34632205. I'll be more than glad to assist you.

I understand that you shipped the **Jordan 11 Retro Cool Grey (2021)** to us with the best of intentions to complete the sale. Looking at this order I can see that this product is unable to be sent to the buyer due to inconsistencies in the construction of the shoe and its box.

StockX is unique in that we only accept new "deadstock" condition shoes so we must be very stringent during our verification process. While there is a bit of leeway for common manufacturing variances. the item received was not within our accepted standards.

Though we cannot move forward with this sale, we do want to help. If you have any concerns for future listings, don't hesitate to reach back out to us and we will assist in any way we can.

Thank you for being the best part of the StockX family!

Best regards,
Starlyn
